## Thank you for Your Caring Spirit

When a person or a medical team at one of our [North Central Health Care Foundation's](#) facilities goes above and beyond to aid in the recovery and care, the best way to say thank you in a meaningful, lasting way is to make a gift through our Caring Spirit program. With your support we can help our team continue to provide the best possible care.

## Caring Spirit

A way of saying thank you to the people who were there when you needed them most

## How Your Gratitude Can Give Back

Every day, babies are born, bones are reset and cuts are stitched. Patients rehabilitate surgically repaired knees, undergo x-rays and a variety of diagnostic tests.

Doctors, nurses, technicians, Home Care workers, Health Services personnel, hospital and long term care personnel are the life force behind any health region. They work together as a team to treat patients/clients with dignity and compassion. They care about the people in our community and show it by giving you the best medical attention possible.

The Caring Spirit program allows grateful patients, family members and friends to express their gratitude to the people who were there when they needed them most.

This program provides the opportunity to support excellence in patient care at any of the North Central Health Care Foundation's facilities, while recognizing professional services by a particular individual or health care team.

## How the Caring Spirit Program Works

On Receipt of your Gift, the North Central Health Care Foundation will send a card to the health care professional(s) you wish to honour.

You will receive a charitable tax receipt along with our thanks.

## Have you received outstanding care within the North Central Health Care Region?

### How Your Gift Works

North Central Health Care Foundation's Caring Spirit program helps the Kelsey Trail Health Region provide the best care possible.

The NCHCF works closely with the Health Region's Facilities in its area to determine the highest priorities each year, so that funds are always directed to the areas of care where they are needed most.

Recognizing caregivers is a wonderful way to support our health region – and your gratitude for excellent care deeply touches the hearts of the people you thank. Most importantly, your gift also helps to create an environment in which medical professionals experience greater satisfaction and have greater opportunity to excel.

### Tell us your story

If you are a grateful patient and would like to share your story, we would love to hear from you. Tell us how you or someone you love has been helped by the caring and supportive staff, doctors, and nurses.

North Central Health Care Foundation

*Thank you once again for your contribution to our North Central Health Care Foundation*

The North Central Health Care Foundation is working on a variety of events throughout the year for the purpose of spreading information about the Foundation and to help in fundraising efforts for its cause.

If you are interested in volunteering your time to help facilitate any event, please contact our office and speak to us about what we currently have need of help with. This Foundation was built to benefit our community, and we understand that time is often as important as money when it comes to donations. We appreciate any and all help that we receive.
